CASA

FROM: GÖTESSONS

Casa uno is the phone booth designed for those who need extra concentration or need to make important phone calls that shouldn't be overheard. Inside, you'll find a fixed table for your computer, power outlets, charging ports, comfortable dimmable lighting, and an optional barstool. The booth is also equipped with automatic ventilation to ensure a pleasant and fresh environment.

Designers: o4i Design Studio.

Easy to move and stabilize

For easy relocation, the booth is equipped with wheels. Once positioned correctly, the adjustable feet can be lowered to stabilize and level the booth.

Automatic air flow

For the best possible oxygen environment inside the booth, it features automatic ventilation that ensures the air you breathe is always fresh and clean. Sensors detect when the booth is opened and increase the airflow speed accordingly. When not in use, the system quickly purges the air before entering a standby mode to reduce airflow, thereby saving energy resources.

Work in a distraction free zone

The booth is designed for efficient work in a peaceful environment, ideal for making phone calls or conducting digital meetings. It also offers the convenience of charging stations for phones and laptops if needed.

Externally:

Laminate:
oak, black

alt.

Textile:
Carlow

Stool textile Lido:

Grafit 7
Concrete 17
